

Welcome to Diversity Graphics, providing diversity materials to Government offices, Schools and the private sector to help celebrate one of this country's strongest assets: DIVERSITY.

DIVERSITY is and will always be the tool in which all of us from all walks of ethnic backgrounds truly can appreciate the cultural and traditions that make this melting pot so unique and moves us forward... not as one, but as a group. It is through our relationships in the workforce that some of us first really begin to understand each other's unique backgrounds and culture. It is through our schools that our children from other parts of the country and world begin their lessons in DIVERSITY and how to understand and respect this nation's many colors.

We thank our clients who have purchased products through the years and hope our new clients will enjoy and share the many items we have to offer.

Please feel free to tell us what YOU want to see and what YOU want and need! We now offer the opportunity to personalize our designs with your company logo or name. These customized products are available for a low minimum of 50 or more pieces. Please inquire by [e-mail](#) or phone: 323 816 2460 for set-up fee and cost.

Sincerely,

Mark A. Martinez
